

## Runcorn Terminal

Runcorn terminal has been certified under the ISO 9001 quality standards. All facilities have been approved by HM Revenue & Customs.

## Location

Runcorn terminal is situated on the Manchester Ship Canal in the port of Liverpool.

## Tankage

The tank farm at Runcorn has a total capacity of 40,000 tons in 4 storage tanks.

## Jetty Facilities

The terminal can receive and redeliver 8,000 tonne parcels of Sulphur to sea but vessels are restricted to a maximum beam of 17 meters at the entrance to the Manchester Ship Canal.

There is one dockline able to receive from sea and redeliver product back to sea.

## Road Loading Facilities

There are two loading gantries fitted with weighbridges. All loading arms are fed via 4 inch lines delivering to road vehicles at 60m<sup>3</sup> per hour

## Products Handled

Runcorn terminal stores molten Sulphur.
